2016 AWARD NOMINATIONS

Geochemists want and need recognition for their work. Awards help to inspire individuals to do their best. Awards set the bar for others to match or exceed. Your participation in the awards program, either by being a nominator or by writing a supporting letter of recommendation, benefits both the nominee and the geochemical community. Please take the time to highlight the accomplishments of your valued colleagues by nominating them. With your help, we can ensure that the award committees have a diverse and deserving pool of candidates.

	The V.M. Goldschmidt Medal is awarded for major achievements in the fields of geochemistry or cosmochemistry, consisting either of a single outstanding contribution or of a series of publications that have had great influence in these fields.
	The F.W. Clarke Medal is awarded to a scientist near the start of their career for a single outstanding contribution in geochemistry or cosmochemistry, published either as a single paper or a series of papers on a single topic.
	The C.C. Patterson Medal is awarded for a recent innovative breakthrough of fundamental significance in environmental geochemistry, particularly in service of society, consisting of either a single outstanding contribution or a short series of papers published within the last decade.
	The Alfred Treibs Medal is awarded by the Organic Geochemistry Division of the GS for major achievements in organic geochemistry.
	The GS/EAG Geochemical Fellows Award is bestowed upon outstanding scientists who have made a major contribution in the field of geochemistry.

GOLDSCHMIDT2015
25TH ANNIVERSARY

In honor of the 25th anniversary of the Goldschmidt conference, a series of 25 special anniversary talks linked to each theme will highlight the greatest achievements over the past quarter century and a vision of where the specific geochemical field may be going in the future.

The speakers will aim to give insightful overviews across the whole of their geochemical field, and motivate all of us to explore new research opportunities to advance geochemistry.

We look forward to seeing you there.
