RARE MINERALS FOR RESEARCH

From our inventory of over 200,000 specimens, we can supply your research specimen needs with reliably identified samples from worldwide localities, drawing on old, historic pieces as well as recently discovered exotic species. We and our predecessor companies have been serving the research and museum communities since 1950. Inquiries by email recommended.

Pure samples suitable for standards are readily available. Pictured above are: Zircon from Malawi, Fluorapatite from Mexico, and Spinel from Myanmar.
