SFMC ELECTION RESULTS FOR 2020–2021

Members of the Société Française de Minéralogie et de Cristallographie (SFMC) have elected a new council for 2020–2021 (see <https://sfmc-fr.org/?p=2413&lang=en> for details).

BOARD MEMBERS:

President: Michel Grégoire

Vice-president: Jean-Marc Montel

2nd Vice-president: Armand Masion

Secretary: Marc Blanchard

Assistant Secretary: Etienne Balan

Treasurer: Christian Chopin

Vice-treasurer: Pierre Lanari

Editor of the *Bulletin de la Société Française de Minéralogie et de Cristallographie*: Mary-Alix Kaczmare.

COUNCILORS:

(2020–2023): Laura Airaghi, Muriel Andreani, Herve Cardon, Camille Cartier, Laura Creon

(2018–2021): Helene Bureau, Sylvie Demouchy, Benoit Dubacq, Alexandre Mussi, Benjamin Rondeau.

AUDITORS:

Jannick Ingrin, Catherine Mével.

For their dedicated service, the SFMC thanks Bertrand Devouard (outgoing president), Monique Seyler (outgoing editor of the *Bulletin de la Société Française de Minéralogie et de Cristallographie*), and councilors Pierre Barré, Amélie Bordage, Eloïse Gaillou, Michel Jullien, and Pierre Lanari.

3rd EUROPEAN MINERALOGICAL CONFERENCE

6–10 September 2020, Cracow (Poland)

The Third European Mineralogical Conference (emc2020) will be held from Sunday, 6 September 2020 until Thursday, 10 September 2020 at the Auditorium Maximum, the conference centre of the Jagiellonian University in Kraków (Cracow) (Poland).

Thanks to the involvement of the members from all the main European mineralogical societies, a wide range of scientific sessions has been prepared. The full list of sessions, arranged in 17 themes, is listed at the conference website: <https://emc2020.ptmin.eu/>. The local organizing committee has prepared numerous attractions to accompany the main event. These include pre-conference workshops and post-conference field trips. We hope to meet you in Kraków during emc2020.

In light of the COVID-19 (coronavirus) situation, please regularly visit the meeting website for updated information.

Geochemistry of the Earth's Surface (GES) 12th International Symposium

ETH Zurich (Switzerland), 16–21 August 2020

ETHzürich

We would like to invite you to the 12th International Symposium on Geochemistry of the Earth's Surface (GES12), which will take place 16–21 August 2020 in Zurich (Switzerland). The symposium, organized by the International Association of GeoChemistry (IAGC) and hosted by ETH Zurich, will feature invited plenary talks from world-class speakers and extended poster sessions covering a wide range of cutting-edge research themes in the field of surface and environmental geochemistry.

Further details on the conference and registration (opening in January 2020) are on the GES12 website: www.ges12.com.

This symposium will bring together experts in all fields of surface geochemistry and environmental geochemistry. The conference will have a strong focus on discussing the interactions between the lithosphere, hydrosphere, atmosphere and biosphere, and how these interactions respond to changing environmental and climatic conditions. The overarching theme of GES12 might be summed up as Earth system interactions on a changing planet.

The symposium aims to strengthen connections between research disciplines and to establish new networks. This will be done via eight themes, featuring excellent speakers from prestigious research institutions, such as the California Institute of Technology (California, USA), Massachusetts Institute of Technology (USA), NASA (USA) and Harvard University (Massachusetts, USA). The extensive poster and networking sessions will provide ample opportunities to discuss new research and innovations and to visit the exhibitions.

For further information, please visit www.ges12.com.
