GEOCHEMICAL CAREER CENTER

The Geochemical Society's Geochemical Career Center is a web-based service open to the entire geochemical community offering an easy-to-use and highly targeted resource for online employment connections.

Employers can use the Geochemical Career Center to reach qualified candidates. For a nominal fee, employers can post job openings, search for qualified candidates based on specific job criteria, and create an online resume agent to e-mail qualified candidates. Through May 31, 2010, employers can take 25% off their job postings by using promotion code GCC25.

For job seekers, the Geochemical Career Center is a free service that provides access to employers and geochemistry jobs. In addition to posting resumes, job seekers can browse and view available jobs based on their criteria and save those jobs for later review if they choose. Job seekers can also create a search agent to provide e-mail notifications of jobs that match their criteria.

If you are looking for a job or have a job you want to post, go to the Geochemical Career Center at www.geochemsoc.org.
