TÜBINGEN, GERMANY, 16.-18. JUNE 2011
PERALK-CARB 2011
WORKSHOP ON PERALKALINE ROCKS AND CARBONATITES

This workshop, to be held during
16-18 June 2011

at the Institut für Geowissenschaften, Universität Tübingen, Southern Germany, will address the generation and evolution of **peralkaline rocks and carbonatites** from their source to the last stages of their crystallization (fertilization, hydrothermal processes) with an additional emphasis on their economic potential. A special session will be devoted to the alkaline rocks and carbonatites of the Gregory Rift in East Africa. Geologists, petrologists and geochemists are welcome to contribute with general or with case studies, be they based on experiments or field studies.

Eleven distinguished keynote speakers will review the state of the art knowledge on all aspects of the topic. A LITHOS Special issue based on the contributions from this workshop is planned to be published.

Please visit our website (<http://www.ifg.uni-tuebingen.de/departments/min/petrology/peralk-carb-2011/index.html>) or contact Michael Marks (michael.marks@uni-tuebingen.de). The total number of contributing participants will be restricted to 65. Please send an expression of interest with a preliminary title before 30th of November 2010. Participation will be confirmed until 15th December 2010.
