

# INTRAMIF

Initial TRaining Network on Mass Independent Fractionation –  
A Marie Curie Initial Training Network

**13 PhD studentships**  
for early-stage researchers  
using stable isotopes in

*Eight European labs*

*Five European countries*

- Climatology**
- Hydrology**
- Atmospheric chemistry**
- Physical chemistry**
- Oceanography**
- Molecular Processes**

**Eight non-academic partners**

summer schools – network meetings – international conferences

Start date: 1 September 2009
