

Washington: Senior Scientists (RJLG- WASCJK)

Status: Full Time/Staff Augmentation
Department: Hanford Nuclear Waste Site
Location: Pasco, WA
Reference Code: RJLG- WASCJK

Job Summary:

RJ Lee Group, Inc. is looking for four Senior Scientists with experience in the Geology, Mineralogy, Chemistry, or Material Science areas. The Senior Scientists will be performing a combination of laboratory analyses, including the analysis of radioactive samples and data compilation activities.

Common assignments include the collection, tabulation and summarization of large data sets from a variety of analytical test scenarios, generation of Power Point and graphical reports, statistical trending charts, and technical reports.

The analytical instrument and educational requirements for each position is listed below.

- 1st position requires a working knowledge of scanning electron microscopy (SEM); PhD Geology or MS with equivalent experience. Professional Geologist Degree highly preferred.
- 2nd position requires a working knowledge of laser sizing analysis equipment/particle sizing; entry level PhD in Chemistry or other physical science.
- 3rd position requires a working knowledge of HPLC (High performance liquid chromatography); PhD in Chemistry with 1-3 years experience.
- 4th position requires a background in cement chemistry; PhD preferred or MS with equivalent experience in Chemistry or Material Science.

Qualifications and Requirements:

- PhD degree in Geology, Mineralogy, Chemistry, or Material Science, with at least 3-5 years professional experience.
- A MS degree in the above areas will be considered with at least 3-5 years experience.
- Experience with a wide range of environmental and industrial hygiene matrices and techniques.
- Ability to troubleshoot and problem solve.
- Strong orientation towards teamwork and mentoring.
- Must have good organizational skills and ability to perform multiple tasks efficiently.
- Strong verbal and written English communication skills - prior publication experience is highly desired.
- Strong MS Office applications experience.
- Demonstrated ability to manage multiple projects and coordinate desired results.
- US Citizenship required.
