

Elements

An International Magazine of Mineralogy, Geochemistry, and Petrology

COVER IMAGE: Granite laccolith in the Torres del Paine, Chile.
IMAGE CREDIT: JON CORNFORTH © CORNFORTH IMAGES.

Elements is published jointly by the Mineralogical Society of America, the Mineralogical Society of Great Britain and Ireland, the Mineralogical Association of Canada, the Geochemical Society, the Clay Minerals Society, the European Association of Geochemistry, the International Association of Geochemistry, the Société Française de Minéralogie et de Cristallographie, the Association of Applied Geochemists, the Deutsche Mineralogische Gesellschaft, the Società Italiana di Mineralogia e Petrologia, the International Association of Geoanalysts, the Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), the Sociedad Española de Mineralogía, the Swiss Society of Mineralogy and Petrology, the Meteoritical Society, and the Japan Association of Mineralogical Sciences. It is provided as a benefit to members of these societies.

Elements is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to any of the following journals—*American Mineralogist*, *Clay Minerals*, *Clays and Clay Minerals*, *Mineralogical Magazine*, and *The Canadian Mineralogist*—also receive one copy of *Elements* as part of their 2016 subscription. Institutional subscriptions are available for US\$165 (US\$180 non-US addresses) a year in 2016. Contact the executive editor (jrosso.elements@gmail.com) for information.

Enigmatic Relationship Between Silicic Volcanic and Plutonic Rocks

Guest Editors: **Craig C. Lundstrom** and **Allen F. Glazner**

91 Silicic Magmatism and the Volcanic-Plutonic Connection

Craig C. Lundstrom and Allen F. Glazner

97 The Pace of Plutonism

Drew S. Coleman, Ryan D. Mills, Matthew J. Zimmerer

103 The Life and Times of Silicic Volcanic Systems

Colin J. N. Wilson and Bruce L. A. Charlier

109 Experimental Constraints on the Formation of Silicic Magmas

Bruno Scaillet, Francois Holtz, and Michel Pichavant

115 Crustal Magmatic Systems from the Perspective of Heat Transfer

Jon D. Blundy and Catherine J. Annen

121 Geophysical Evidence for Silicic Crustal Melt in the Continents: Where, What Kind, and How Much?

Matthew E. Pritchard and Patricia M. Gregg
