

Elements

An International Magazine of Mineralogy, Geochemistry, and Petrology

Elements is published jointly by the Mineralogical Society of America, the Mineralogical Society of Great Britain and Ireland, the Mineralogical Association of Canada, the Geochemical Society, The Clay Minerals Society, the European Association for Geochemistry, the International Association of Geochemistry, the Société Française de Minéralogie et de Cristallographie, the Association of Applied Geochemists, the Deutsche Mineralogische Gesellschaft, the Società Italiana di Mineralogia e Petrologia, the International Association of Geoanalysts, the Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), the Sociedad Española de Mineralogía, and the Swiss Society of Mineralogy and Petrology. It is provided as a benefit to members of these societies.

Elements is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to any of the following journals—*American Mineralogist*, *Clay Minerals*, *Clays and Clay Minerals*, *Mineralogical Magazine*, and *The Canadian Mineralogist*—also receive *Elements* as part of their 2009 subscription. Institutional subscriptions are available for US\$150 a year in 2009. Contact the managing editor (tremblpi@ete.inrs.ca) for information.

Volume 5, Number 5 • October 2009

Gold

Guest Editors: Robert M. Hough and Charles R. M. Butt

Why Gold Is Valuable

Charles R. M. Butt and Robert M. Hough

Gold in Solution

Anthony E. Williams-Jones, Robert J. Bowell, and Artashes A. Migdisov

Gold Deposits: Where, When and Why

John L. Walshe and James S. Cleverley

From Source to Sinks in Auriferous Magmatic-Hydrothermal Porphyry and Epithermal Deposits

Richard M. Tosdal, John H. Dilles, and David R. Cooke

The Crystallography, Metallography and Composition of Gold

Robert M. Hough, Charles R. M. Butt, and J. Fischer-Bühner

The Biogeochemistry of Gold

Gordon Southam, Maggy F. Lengke, Lintern Fairbrother, and Frank Reith

Gold and Nanotechnology

Claire M. Coble and Younan Xia

ABOUT THE COVER:
The Liversidge nugget, in the Royal Museum, Edinburgh, was described in 1888 by Archibald Liversidge, pioneer gold geologist and geochemist and an important early protagonist for science in Australia. See page 335 of this issue. PHOTOGRAPH BY CHARLES BUTT 2009 BY PERMISSION OF THE TRUSTEES, NATIONAL MUSEUMS SCOTLAND
