Elements is published jointly by the Mineralogical Society of America, the Mineralogical Society of Great Britain and Ireland, the Mineralogical Association of Canada, the Geochemical Society, The Clay Minerals Society, the European Association for Geochemistry, the International Association of Geochemistry, the Société Française de Minéralogie et de Cristallographie, the Association of Applied Geochemists, the Deutsche Mineralogische Gesellschaft, the Società Italiana di Mineralogia e Petrologia, the International Association of Geoanalysts, the Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), the Sociedad Española de Mineralogía, and the Swiss Society de Mineralogia. It is provided as a benefit to members of these societies.

Elements is published six times a year. Individuals are encouraged to join any one of the participating societies to receive Elements. Institutional subscribers to any of the following journals—American Mineralogist, Clay Minerals, Clays and Clay Minerals, Mineralogical Magazine, and The Canadian Mineralogist—also receive Elements as part of their 2009 subscription. Institutional subscriptions are available for US$150 a year in 2009. Contact the managing editor (tremblpi@etc.inrs.ca) for information.

Volume 5, Number 6 • December 2009

Metal Stable Isotopes: Signals in the Environment
Guest Editors: Thomas D. Bullen and Anton Eisenhauer

Metal Stable Isotopes in Low-Temperature Systems: A Primer
Thomas D. Bullen and Anton Eisenhauer

The Odds and Evens of Mercury Isotopes: Applications of Mass-Dependent and Mass-Independent Isotope Fractionation
Bridget A. Bergquist and Joel D. Blum

Reconstructing Paleoredox Conditions through Multitracer Approaches: The Key to the Past Is the Present
Silke Severmann and Ariel D. Anbar

Marine Calcification: An Alkaline Earth Metal Isotope Perspective
Anton Eisenhauer, Başak Kısakürek, and Florian Böh"m

Combining Metal Stable Isotope Fractionation Theory with Experiments
Edwin A. Schauble, Merlin Méheut, and Pamela S. Hill

Fractionation of Metal Stable Isotopes by Higher Plants
Friedhelm von Blanckenburg, Nicolaus von Wiré, Monica Guelke, Dominik J. Weiss, and Thomas D. Bullen

Environmental and Biomedical Applications of Natural Metal Stable Isotope Variations
Thomas D. Bullen and Thomas Walczyk

Departments

Editorial – The da Vinci Profile
From the Editors – This Issue; 2010 Preview
Triple Point – Elements’ Fifth Anniversary
People in the News – Hawthorne, Barnes, Benson, Harrison, Lee
