

# Elements

An International Magazine of Mineralogy, Geochemistry, and Petrology

*Elements* is published jointly by the Mineralogical Society of America, the Mineralogical Society of Great Britain and Ireland, the Mineralogical Association of Canada, the Geochemical Society, The Clay Minerals Society, the European Association of Geochemistry, the International Association of GeoChemistry, the Société Française de Minéralogie et de Cristallographie, the Association of Applied Geochemists, the Deutsche Mineralogische Gesellschaft, the Società Italiana di Mineralogia e Petrologia, the International Association of Geoanalysts, the Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), the Sociedad Española de Mineralogía, Swiss Geological Society, the Meteoritical Society, the Japan Association of Mineralogical Sciences, and the International Association on the Genesis of Ore Deposits. It is provided as a benefit to members of these societies.

*Elements* is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to any of the following journals—*American Mineralogist*, *Clay Minerals*, *Mineralogical Magazine*, and *The Canadian Mineralogist*—also receive one copy of *Elements* as part of their 2021 subscription. Institutional subscriptions are available for US\$180 (US\$195 non-US addresses) a year in 2021. Contact the executive editor (jross@elements@gmail.com) for information.

93

101

107

113

### Cave and Speleothem Science: From Local to Planetary Scales

Joshua M. Feinberg and Kathleen R. Johnson

### Uranium–Thorium Dating of Speleothems

Kathleen A. Wendt, Xianglei Li, and R. Lawrence Edwards

### Tales from the Underground: Speleothem Records of Past Hydroclimate

Kathleen R. Johnson

### Temperature Reconstructions Using Speleothems

A. Nele Meckler, Hubert Vonhof, and Alfredo Martínez-García

### Cave Decorating with Microbes: Geomicrobiology of Caves

Daniel S. Jones and Diana E. Northup

### Attraction in the Dark: The Magnetism of Speleothems

Joshua M. Feinberg and Kathryn K. Hobart
