

Elements

An International Magazine of Mineralogy, Geochemistry, and Petrology

Volume 18, Number 6 • December 2022

The interior structure of Io, with arbitrary layer thicknesses, considering different scenarios. IMAGE CREDIT: CARNEGIE INSTITUTION FOR SCIENCE / KATY CAIN AND JOHN STROM AND NASA FOR THE IMAGE OF THE SURFACE OF IO.

Elements is published jointly by the Mineralogical Society of America, the Mineralogical Society of the UK and Ireland, the Mineralogical Association of Canada, the Geochemical Society, The Clay Minerals Society, the European Association of Geochemistry, the International Association of GeoChemistry, the Société Française de Minéralogie et de Cristallographie, the Association of Applied Geochemists, the Deutsche Mineralogische Gesellschaft, the Società Italiana di Mineralogia e Petrologia, the International Association of Geoanalysts, the Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), the Sociedad Española de Mineralogía, Swiss Geological Society, the Meteoritical Society, the Japan Association of Mineralogical Sciences, and the International Association on the Genesis of Ore Deposits. It is provided as a benefit to members of these societies.

Elements is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to any of the following journals—*American Mineralogist* and *The Canadian Mineralogist*—also receive one copy of *Elements* as part of their subscription. Institutional subscriptions are available for US\$180 (US\$195 non-US addresses) a year in 2022. Contact the executive editor (editorialteam.elements@gmail.com) for information.

Participating Publisher

Exploring Jupiter's Moon Io

Guest Editors: **Anne Pommier** and **Alfred McEwen**

Io: A Unique World in our Solar System

Annie Pommier and Alfred McEwen

Tidal Heating in Io

Isamu N. Matsuyama, Teresa Steinke, and Francis Nimmo

Io's Volcanic Activity and Atmosphere

Ashley Gerard Davies and Audrey Helena Vorburger

The Internal Structure of Io

Doris Breuer, Christopher W. Hamilton, and Krishan Khurana

The Cycles Driving Io's Tectonics

Laszlo P. Keszthelyi, Windy L. Jaeger, and Jani Radebaugh

Perspective: The Future Exploration of Io

James Tuttle Keane, Katherine de Kleer, and John Spencer
