

The Mineralogical **Society of America** is composed of individuals interested in mineralogy,

interested in mineralogy, crystallography, petrology, and geochemistry. Founded in 1919, the Society promotes, through education and research, the understanding and application of mineralogy by industry, universities, government, and the public. Membership benefits include special subscription rates for American Mineralogist as well as other journals, a 25% discount on Reviews in Mineralogy & Geochemistry Reviews in Mineralogy & Geochemistry series and Monographs, *Elements*, reduced registration fees for MSA meetings and short courses, and participation in a society that supports the many facets of mineralogy.

The Mineralogical Society of Great Britain and Ireland is an international society for all those working in the

mineral sciences. The Society aims to advance the knowledge of the science of mineralogy and its application to other subjects, including crystallography, geochemistry, petrology, environmental science and economic geology. The Society furthers its aims through scientific meetings and the publica-tion of scientific journals, books and mono-graphs. The Society publishes *Mineralogical Magazine* and *Clay Minerals*. Students receive the first year of membership free of charge. All members receive Elements.

The Clay Minerals Society (CMS) began as the Clay Minerals Committee

CLAY Minerals Committee of the US National Academy of Sciences – National Research Council in 1952. In 1962, the CMS was incorporated with the primary purpose of stimulating research and disseminating information relating to all aspects of clay science and technology. The CMS holds annual meetings, workshops, and field trips, and publishes Clays and Clay Minerals and the CMS Workshop Lectures series. Membership benefits include reduced registration fees to the annual meeting, discounts on the CMS Workshop Lectures, and Elements.

The Geochemical Society

(GS) is an international organization founded in 1955 for students and scientists involved in the

scientists involved in the practice, study, and teaching of geochemistry. Our programs include cohosting the annual Goldschmidt Conference^{IM}, editorial oversight of Geochimica et Cosmochimica Acta (GCA), supporting geochemical symposia through our Meeting Assistance Program, and supporting student development and supporting student Travel Grant Program. GS annually recognizes excellence in geochemistry through its medals, lectures, and awards. Members receive a subscription to Elements, special member rates for GCA and G-cubed, and publication and conference discounts.

Founded in 1985, the European Association of Geochemistry is a non-profit organization dedi-

cated to promoting geochemistry internationally. The society is an active and dynamic organization of over 2700 members that leads the biannual European Goldschmidt conference organization. zation, publishes Geochemical Perspectives, recognizes scientific excellence through awards, sponsors workshops and conferences in Europe and organizes a Distinguished Lecture Program.

The International Association of GeoChemistry (IAGC) has

GeoChemistry (IAGC) has been a pre-eminent international geochemical organization for over 40 years. Its principal objectives are to foster cooperation in the advancement of applied geochemistry by sponsoring specialist scientific symposia and the activities organized by its working groups and by supporting its journal, Applied Geochemistry. The administration and activities of IAGC are conducted by its Council, comprising an Executive and ten ordinary members. Day-to-day administration is performed through the IAGC business office.

The Association of Applied Geochemists is an international organiza-tion founded in 1970 that specializes in the field of applied geochemistry. It aims to advance the science

of geochemistry as it relates to exploration and the environment, further the common interests of exploration geochemists, facilitate the acquisition and distribution of scientific knowledge, promote the exchange of information, and encourage research and development. AAG membership includes

the AAG journal. Geochemistry: Exploration. Environment, Analysis; the AAG newsletter, EXPLORE; and Elements.

The Deutsche Mineralogische Gesellschaft (German Mineralogical Society) was founded in 1908 to "promote mineralogy and all its subdisciplines in

teaching and research as well as the personal relationships among all members." Its great tradition is reflected in the list of honorary fellows, who include M. v. Laue, G. v. Tschermak, P. Eskola, C. W. Correns, P. Ramdohr, and H. Strunz. Today, the Society especially tries to support young researchers, e.g. to attend conferences and short courses. Membership benefits include the European Journal of Mineralogy, GMit, and Elements.
