IAG Early Career Researcher Award 2024

The International Association of Geoanalysts (IAG) sponsors an annual award for research by a scientist in the early stages of their profession that closely reflects the goals of our Association.

The award aims to promote the careers of researchers who have either developed new analytical methods and strategies to improve data quality or characterised reference materials relevant to the field of geoanalysis.

Eligibility is limited to scientists who are currently pursuing a higher degree in a field related to geoanalysis or who have completed their university education within the past three years.

The candidate must be nominated by a senior scientist from the geoscience community. The award is based upon first-authored peer-reviewed papers published in an international journal.

The award consists of an 18-month free membership of the IAG and a cash prize of \$1000 US. The awardee will be expected to present their work at the 2024 Goldschmidt conference in Chicago, USA where the award ceremony takes place. The registration fee for this conference will be paid as part of this award.

Submission requirements, further details and the nomination form can be downloaded from the IAG website: <http://www.geoanalyst.org/early-career-researcher-award/>

NOMINATIONS MUST BE RECEIVED BY 31 OCTOBER 2023
