GS CAREER CENTER

Geochemical Career Center Account Benefits

The Geochemical Career Center features job opportunities from employers all around the world. If you are looking for a teaching, research, or postdoctoral position, be sure to add the Career Center to the websites you follow. If you are an employer seeking excellent candidates, it's a great way to advertise your position to members of the society. Job postings in the Career Center are also featured in *Geochemical News*, the society's weekly electronic newsletter. Visit jobs.geochemsoc.org to get started.

GS PRESENTS ITS DISTINGUISHED SERVICE AWARD TO KENNA RUBIN

Kenna Rubin of the University of Hawai'i at Mānoa and the University of Rhode Island, USA was named the 2023 GS Distinguished Service Award recipient. Dr. Rubin is recognized for extraordinary service to the Geochemical Society and the broader geochemical community through leadership as chair of the Local Organizing Committee and Science Committee member for the Goldschmidt Conferences in 2020 and 2022. Through difficult circumstances, Dr. Rubin demonstrated enthusiasm, organizational acumen, and a spirit of Aloha that contributed to two successful meetings. The Distinguished Service Award is presented on an irregular basis to recognize contributions that greatly exceed the normal expectations of voluntary service.

GOLDSCHMIDT2024 CALL FOR SESSIONS AND WORKSHOPS

GOLDSCHMIDT[®] 2024
Chicago
 18–23 August

The next Goldschmidt Conference will take place in Chicago, Illinois, USA and online from August 18 to 23, 2024. The science program is built from the ground up with contributions from the international geochemistry community. The call for session and workshop proposals is open through October 31, 2023. The GS and EAG welcome proposals covering the full range of topics in geochemistry, represented in the conference's 14 themes. Visit 2024.goldschmidt.info to learn more and submit a proposal.

GS CAPACITY-BUILDING GRANTS

The GS is offering grants to support initiatives aimed at promoting networking, educational activities, analytical training or capacity building related to geochemistry in countries with low and lower-middle-income economies. Grants up to \$2,500 will be awarded later this year. Apply by 30 September 2023.
