OneGeochemistry

Global Alliance for Geochemical Data

OneGeochemistry hosted two community discussions on consistent data documentation in laboratory workflows and publications at Goldschmidt 2026 in Montreal.

The **Editors' Roundtable on Publication of Geochemical Data** brought together >10 journals, publishers and data repositories to discuss data review in research publication workflows. There will be a **virtual roundtable** in the coming months. Contact onegeochemistry@codata.org for details.

The **Town Hall** introduced community-recommended best practices for documenting analytical procedures (**Technique-Aligned Procedure Profiles, or TAPPs**) for more reproducible and reusable geochemical data. We now invite community review via Expert Working Groups.

Join an Expert Working Group to review TAPPs
