

Elements

An International Magazine of Mineralogy, Geochemistry, and Petrology

Volume 22, Number 5 • October 2026

Elements is published jointly by the Mineralogical Society of America, Deutsche Mineralogische Gesellschaft, Mineralogical Society of the UK and Ireland, Mineralogical Association of Canada, Geochemical Society, The Clay Minerals Society, European Association of Geochemistry, International Association of Geochemistry, Société Française de Minéralogie et de Cristallographie, Association of Applied Geochemists, Società Italiana di Mineralogia e Petrologia, International Association of Geoanalysts, Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), Sociedad Española de Mineralogía, Swiss Geological Society, Meteoritical Society, Japan Association of Mineralogical Sciences, and International Association on the Genesis of Ore Deposits. The magazine is provided as a benefit to members of these societies.

Elements is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to either of the following journals—*American Mineralogist* and *Canadian Journal of Mineralogy and Petrology*—also receive one copy of *Elements* as part of their subscription. Institutional subscriptions are available for US\$190 (US\$205 non-US addresses) per year in 2026. Contact the Executive Editor (editor@elementsmagazine.org) for information.

 **GeoScienceWorld**
Participating Publisher

Zeolites

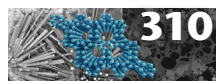

Guest Editors: **Tobias B. Weisenberger, G. Diego Gatta, Alessio Langella, and David L. Bish**

299

Natural Zeolites: Understated Minerals with Remarkable Versatility

G. Diego Gatta, Tobias B. Weisenberger, Alessio Langella, and David L. Bish

310

Natural Zeolite Crystal Chemistry: Structural Diversity and Behavior Under Non-ambient Conditions

Paolo Lotti, Annalisa Martucci, G. Diego Gatta, and David L. Bish

317

Zeolites as Tools for Interpreting Geological and Geochemical Conditions

Tobias B. Weisenberger and Simon Spürgin

325

New and Innovative Applications of Natural Zeolites

Aleksandra Daković, Mariano Mercurio, David L. Bish, and Tobias B. Weisenberger

332

Natural Zeolites: Pathways to Green and Durable Cement and Concrete

Ruben Snellings, Simon Spürgin, and Sevgi Özen

339

Applications of Zeolites in Environmental Remediation

Hossein Kazemian, Tadafumi Koyama, Isabel Diaz, and Neil Hyatt
