

2014

February 10–11 MAC Short Course: **Geology of Gem Deposits**, Tucson, AZ, USA. E-mail: groat@mail.ubc.ca; web page: www.mineralogicalassociation.ca

March 16–20 247th ACS National Meeting & Exposition, Dallas, TX, USA. Web page: www.acs.org

March 17–21 45th Lunar and Planetary Science Conference (LPSC2014), Houston area, TX. Web page: www.hou.usra.edu/meetings/lpsc2014

March 19–21 North Atlantic Craton Conference 2014, University of St Andrews, Fife, Scotland, UK. Web page: www.nac-conference2014.org.uk

March 20–21 The Mineralogical Society: Clay Minerals Group / Environmental Mineralogy Group / Applied Mineralogy Research in Progress, Durham UK. Web page: www.minersoc.org/cm-grip-2014.html

March 30–April 4 Linkages and Feedbacks in Orogenic Processes — A Conference Honoring the Career of Robert D. Hatcher Jr., Asheville, NC, USA. Web page: www.geosociety.org/penrose/14asheville.htm

April 6–9 AAPG 2014 Annual Convention & Exhibition, Houston, TX, USA. Web page: www.aapg.org/meetings

April 21–25 MRS Spring Meeting, San Francisco, CA, USA. Web page: www.mrs.org/spring2014

April 27–May 2 European Geosciences Union General Assembly 2014, Vienna, Austria. Web page: www.egu2014.eu

April 27–May 9 International School on Fundamental Crystallography: Fourth MaThCryst school in Latin America, La Plata, Argentina. Web page: www.crystallography.fr/mathcryst/laplata2014.php

May 4–14 6th Orogenic Lherzolite Conference, Marrakech, Morocco. Web page: www.gm.univ-montp2.fr/Lherzolite

May 17–21 51st annual meeting of The Clay Minerals Society (CMS), College Station, TX, USA. Web page: cms2014.tamu.edu

May 21–23 Geological Association of Canada / Mineralogical Association of Canada Annual Meeting, Fredericton, Canada. Web page: www.unb.ca/conferences/gacmac2014

May 24–28 American Crystallographic Association Meeting, Albuquerque, NM, USA. Details forthcoming

May 25–29 New Diamond and Nano Carbons Conference (NDNC 2014), Chicago, IL, USA. Web page: www.mrs.org/ndnc-2014

May 26–31 Accretion and Early Differentiation of the Earth and Terrestrial Planets (ACCRETE), Nice, France. Web page: www.accrete.uni-bayreuth.de/?page=workshops

June 8–13 ZEOLITE 2014, Belgrade, Serbia. Web page: www.inza.unina.it/upcoming-events/111-zeolite-2014-full

June 9–13 Goldschmidt Conference, Sacramento, CA, USA. Web page: <http://goldschmidt.info/2014>

June 15–19 11th International GeoRaman Conference, Saint Louis, MO, USA. E-mail: alianw@levee.wustl.edu; web page: www.georaman2014.wustl.edu

June 30–July 4 Asteroids, Comets, Meteors, Helsinki, Finland. E-mail: acm-2014@helsinki.fi; web page: www.helsinki.fi/acm2014

June 30–July 4 30th SEGh (Society of Environmental Geochemistry and Health) Conference, University of Northumbria, Newcastle, UK. Web page: www.segh.net/events/seggh-conference

July 13–17 BIOGEOMON 2014 – 8th International Symposium on Ecosystem Behavior, Bayreuth, Germany. Web page: www.bayceer.uni-bayreuth.de/biogeomon2014

July 28–August 1 Asia Oceania Geosciences Society 11th Annual Meeting, Sapporo, Japan. Web page: www.asioceania.org/society/index.asp

August 2–7 IUMAS-6 held in conjunction with Microscopy & Microanalysis 2014, Hartford, CT, USA. Web page: www.iumas6.org

August 3–7 Microscopy & Microanalysis 2014, Hartford, CT, USA. Web page: www.microprobe.org/events/microscopy-microanalysis-2014

August 5–7 First Meeting of the IAGC Urban Geochemistry Working Group, Columbus, OH, USA. Web page: www.iagc-society.org/UG.html

August 5–12 23rd Congress and General Assembly of the International Union of Crystallography, Montréal, Canada. Website: www.iucr2014.org

August 10–14 248th ACS National Meeting & Exposition, San Francisco, CA, USA. Web page: www.acs.org

August 18–23 Geochemistry of the Earth's Surface (GES-10), Paris, France. Web page: www.ipgp.fr/GES10

August 19–22 14th Quadrennia IAGOD Symposium, Kunming, China. Website: www.14iagod.org

August 25–September 3 EMU School 2014: Planetary Mineralogy, Glasgow, Scotland. Web page: <http://eurominunion.org>

September 1–5 21st General Meeting of the International Mineralogical Association (IMA2014), Johannesburg, South Africa. E-mail: info@ima2014.co.za; web page: www.ima2014.co.za

September 1–6 31st International Conference on Ore potential of Alkaline, Kimberlite and Carbonatite Magmatism, Antalya, Turkey. Website: <http://alkaline2014.com>

September 7–14 Annual Meeting of the Meteoritical Society, Casablanca, Morocco. Web page: www.meteoritical-society.org

September 10–12 Joint SGI-SIMP Meeting, Milano, Italy. E-mail: segreteria@socminpet.it; web page: www.socminpet.it/simp2014/home.htm

September 10–12 Planet Formation & Evolution 2014, Kiel, Germany. Web page: www1.astrophysik.uni-kiel.de/~kiel2014/main

September 16–19 7th Mid-European Clay Conference (MECC2014), Dresden, Germany. Website: www.mecc2014.de

September 21–24 The 92nd Annual Meeting of the German Mineralogical Society (DMG), Jena, Germany. E-mail: Falko.Langenhorst@uni-jena.de

October 12–16 MS&T'14: Materials Science & Technology Conference and Exhibition, Pittsburgh, PA, USA. Web page: www.matscitech.org/about/future-meetings

October 19–22 Geological Society of America Annual Meeting, Vancouver, BC, Canada. E-mail: meetings@geosociety.org; web page: www.geosociety.org/meetings

November 24–28 Matériaux 2014, Montpellier, France. Web page: www.sfm-fr.org/spip.php?article151

November 30–December 5 MRS Fall Meeting & Exhibit, Boston, MA, USA. Web page: www.mrs.org/fall2014

December 15–19 AGU Fall Meeting, San Francisco, CA, USA. Web page: <http://sites.agu.org/meetings>

2015

January 25–30 39th International Conference and Expo on Advanced Ceramics and Composites, Daytona Beach, FL, USA. Details forthcoming

March 22–26 249th ACS National Meeting & Exposition, Denver, CO, USA. Web page: www.acs.org

May 31–June 3 AAPG 2015 Annual Convention & Exhibition, Denver, CO, USA. Web page: www.aapg.org/meetings

July 5–10 Euroclay 2015, University of Edinburgh, UK. E-mail: stephen.hillier@hutton.ac.uk; web page: www.minersoc.org/euroclay.html

July 27–31 Annual Meeting of the Meteoritical Society, Berkeley, CA, USA. Web page: www.meteoriticalsociety.org

August 2–6 Microscopy & Microanalysis 2015, Portland, OR, USA. Web page: www.microprobe.org/events/microscopy-microanalysis-2015

August 8–14 Geoanalysis Conference, Leoben, Austria. Web page: www.geoanalysis.info

August 16–20 250th ACS National Meeting & Exposition, Boston, MA, USA. Web page: www.acs.org

August 16–21 2015 Goldschmidt Conference, Prague, Czech Republic. Web page: www.geochemsoc.org/programs/goldschmidtconference

August 24–27 SGA 13th Biennial Meeting, Nancy, France. E-mail: sga-2015@univ-lorraine.fr

September 9–11 8th European Conference on Mineralogy and Spectroscopy (ECMS 2015), Rome, Italy. Details forthcoming

The meetings convened by the societies participating in *Elements* are highlighted in yellow. This meetings calendar was compiled by Andrea Koziol (more meetings are listed on the calendar she maintains at <http://homepages.udoynon.edu/~akoziol1/meetings.html>). To get meeting information listed, please contact her at Andrea.Koziol@notes.udoynon.edu.

INTERNATIONAL UNION OF MICROBEAM ANALYSIS SOCIETIES

Microanalysis Techniques for Earth Scientists

Aug 2 Saturday Microanalysis Workshops

Twelve workshops including:

electron backscatter diffraction • advanced EPMA • focused ion beam microscopy • laser ablation ICP-MS • electron energy loss spectroscopy • atom probe tomography

Aug 3 Sunday Keynote and Plenary

Keynote lecture by Prof. Laurie Leshin:

"My Lab is on Mars, Geochemical Adventures with the Mars Curiosity Rover"

Plenary presentations on microanalysis techniques and applications

Aug 4-7 37 Symposia, including:

Mineral Analyses from Laboratory to Spacecraft
Frontiers of Electron-Probe Microanalysis
Advances in Cathodoluminescence, Soft X-ray Analysis

Student support available
www.iumas6.org

Professor of Petrology at the University of Bern

UNIVERSITÄT
BERN

The Institute of Geological Sciences at the University of Bern, Switzerland (www.geo.unibe.ch), invites applications for a professorship in metamorphic and/or igneous petrology. The position is open-rank and applications at all levels are invited. The level of appointment and salary will be commensurate with qualifications and experience. The anticipated starting date is 1 August, 2015.

The Institute is looking for a candidate with a record of creative research and a talent for teaching. The ideal candidate will combine field-based studies with experimental, analytical and theoretical approaches to address fundamental issues of petrogenesis. A willingness to collaborate in the Institute's research activities into deep geothermal energy, structural geology, mineralogy, geochemistry and sedimentology is desired. The Institute is well equipped for modern petrological studies and is situated close to magnificent field exposures for teaching and research in the Alps.

The professorship carries responsibilities for leading a research group, for managing the Institute's petrology laboratories, for teaching petrology at BSc, MSc and PhD levels (BSc in German and MSc in English), and for selected administrative duties within the Institute of Geological Sciences and the Faculty of Science. An appointee who does not already speak German is expected to learn the language in due course. For further information contact klaus.mezger@geo.unibe.ch.

The Institute wishes to increase its number of female professors. Women are therefore especially encouraged to apply.

Applications consisting of a CV, a publication list, copies of the 5 most important publications, a statement of past and future research interests, a list of acquired research funds, and a statement of teaching experience and teaching approach, together with the completed questionnaire (to be downloaded from www.geo.unibe.ch/profpetrology) should be sent preferably by email (pdf or zip) to info@natdek.unibe.ch or by mail to the Dean's Office, Faculty of Science, University of Bern, Sidlerstrasse 5, CH-3012 Bern, Switzerland, by **15 February, 2014**.

The Lyell Collection

One of the largest integrated collections of online Earth science literature in the world

What is the Lyell Collection?

The Lyell Collection is an online collection comprising the Society's journal titles, Special Publications and key book series. Cutting edge science sits alongside important historical material, benefiting from the extensive functionality of HighWire press.

With 260,000 peer-reviewed pages, 26,000 articles and 1,000 volumes, the Lyell Collection is an invaluable tool for the researcher and student alike.

- Full text in HTML and PDF format
- Free public access to alerts, search functions and abstracts
- New from 2013 includes Transactions of the Edinburgh Geological Society and Transactions of the Geological Society of Glasgow.
- Actively linking to cited references
- Selected articles free online
- Hosted by Highwire Press

Special Publication archives

The first 300 volumes of the Geological Society's Special Publications Online Archive are available as a one-off purchase with perpetual access. Prices for the complete 300 volume online archive include a 10% discount.

The Geological Society

The Geological Society of London was founded in 1807 and is the UK national society for geosciences, with over 10,500 members. It is a global leader in Earth science publishing, dedicated to providing a high-quality service throughout the world.

To order the Lyell Collection or individual journal titles, or request further information or a free trial, please contact:

In UK and Europe:

Geofacets is a web-based research tool developed for geoscientists working in upstream exploration. Elsevier and the Geological Society of London joined together to provide access to an extensive database of over 190 000 geological maps from Elsevier's Earth science journals and the GSL's **Lyell Collection**. Its unique interface delivers relevant and high quality content for geoscientists working in the early stages of upstream exploration to assess a region's or basin's geological characteristics.

- Intuitive map-based search features
- Over 115 000 maps downloadable as georeferenced files
- Seamless integration with GIS and other software

Geofacets recently won the award for best Education/ Industry Partnership at the 2012 Getenergy awards ceremony.

**Colorado School of Mines
Geology & Geological Engineering
Assistant/Associate Professor -
Litho geochemistry**

Colorado School of Mines Department invites applications for an anticipated Assistant/Associate Professor position in the field of Litho geochemistry to begin in August 2014.

The successful candidate will be expected to develop a strong and vibrant externally funded program and establish an international reputation through publication, in addition to teaching at the undergraduate and graduate levels, directing graduate research and supervising thesis projects. Candidates must possess a doctoral degree in geochemistry or a closely related discipline. The research interests should complement and support existing campus programs (e.g., crustal processes and ore deposit research, geothermal system research, unconventional resource research, and environmental geochemistry). Applicants must possess strong interpersonal and communication skills. Preference will be given to applicants who: Can teach courses in the geochemistry of earth materials, mineral exploration geochemistry, and analytical geochemistry; have experience with the minerals industry; have conducted research on the geochemical behavior of major and trace elements as well as isotopes in solid-rock geologic systems; or conduct research that complements and supports existing campus programs (e.g., crustal processes and ore deposit research, geothermal system research, unconventional resource research, and environmental geochemistry).

For the complete job announcement and directions on how to apply, visit:
<http://inside.mines.edu/HR-Academic-Faculty>

Canada's Capital University

The Institute of Environmental Science and the Department of Earth Sciences at Carleton University invite applications for a cross-appointed (tenure track) appointment in **Environmental Hydrogeology at the rank of Assistant Professor beginning on July 1, 2013.**

Applicants must have a Ph.D., and demonstrated expertise, teaching experience and research interests in environmental earth sciences that embrace an interdisciplinary approach. The successful candidate will be expected to develop an externally funded field-oriented research program focused on hydrogeology/water resources and water supply, preferably with a strong interest in restoration and rehabilitation of degraded or contaminated sites, impact assessment, or environmental management. Applicants with the ability to forge collaborations with interdisciplinary-oriented faculty across the university, as well as with allied agencies, will be given preference.

Further information on the Institute of Environmental Science, and the Department of Earth Sciences can be obtained at www.carleton.ca/envirosci and www.earthsci.carleton.ca, respectively.

The full length advertisement is posted at www.carleton.ca/facultyrecruitment/2013/environmental-science-earth-sciences-assistant-professor.

Please send a hard copy of your application to Brian Burns, Director, Institute of Environmental Science, c/o Michelle Santoianni, Carleton University, 1125 Colonel By Drive, Ottawa, Ontario K1S 5B6, Canada. Applications for this appointment must include: a curriculum vitae; a teaching portfolio that includes relevant experience, evidence of teaching innovation and performance, and pedagogical approaches to teaching; a summary statement of research interests and experience; and contact information (including email addresses) for three referees.

The deadline for applications is January 31, 2014. All qualified candidates are encouraged to apply. Canadians and permanent residents will be given priority. This position is subject to budgetary approval.

RARE MINERALS FOR RESEARCH

FROM our inventory of over 200,000 specimens, we can supply your research specimen needs with reliably identified samples from worldwide localities, drawing on old, historic pieces as well as recently discovered exotic species. We and our predecessor companies have been serving the research and museum communities since 1950. Inquiries by email recommended.

Combined EDS & EBSD for Deformation Analysis

EDS Mg Ti Fe Na Ca | 800 μm

... with QUANTAX EDS & EBSD

- Advanced Phase ID
- No need for compromises:
large area mappings in high resolution
- Easy handling of big data sets

The physical strength of garnets during the intense deformation of rocks is helpful for the reconstruction of geodynamic processes. The images above show a garnet in a granulite facies mafic boudin that occurs enclosed in quartzite layers within amphibolite facies gneiss of the Lindaas nappe, W-Norway. The high resolution EDS map emphasizes the coronitic reaction texture, which indicates that the sample passed a cooling stage and left the garnet stability field ($P < 14$ kbar, $T < 800$ °C). The inset shows the associated detailed EBSD grain average misorientation map (garnet only) revealing the strong plastic deformation affecting the garnet (misorientation legend: from 0.1° in blue to 10° in red) during subsequent deformation. High temperature plastic deformation leaves the garnet's major element chemistry nearly unaffected, thus in chemical disequilibrium with matrix grains. In collaboration with Dr. Dirk Spengler, Potsdam University, Germany.

More details can be found at: www.bruker.com/elements
